**About**
Focused and motivated are the two words that best describe me. I have been interested in coding since I was young, and have grown an interest in code quality and security over time. I also enjoy gymnastics, drawing, and photography.

**Languages**
Dutch (C2), English (C1), Swedish (A2), French (A2)

**Miscellaneous**
DOB: *6 Feb 1997*
Drivers License: *yes*
Nationality: *Dutch*

## Professional Experience

Cyber-Security Intern, Mezu
*Lisbon, Portugal*                                      *Jun 2019 - Aug 2019*

Full-time internship where I analysed a proprietary communication protocol, performed Mobile Penetration testing and a PCI audit.

Junior Full Stack Developer, Ticketmatic
*Rotterdam, The Netherlands*                          *Mar 2016 - May 2019*

Part-time junior remote full stack developer using NodeJS, PostgreSQL, Heroku, VueJS, JQuery, and Bootstrap. I developed a web application to interface with an existing API for business customers.

Tech Intern, Optiver
*Amsterdam, The Netherlands*                          *Apr 2018 - Jun 2018*

Full-time internship where we, in a group of 4 Bachelor students, built a data analytics tool using Python 3 to analyse terabytes of disjoint sets of log data.

---

## Education

M.Sc Security & Cloud Computing, Aalto University & Tartu University
*Espoo, Finland; Tartu, Estonia*                      *Sep 2018 - Jun 2020*

B.Sc Computer Science, Delft University of Technology
*Delft, The Netherlands*                              *Sep 2015 - Jun 2018*

Minor Computer Science, KTH Royal Institute of Technology
*Stockholm, Sweden*                                   *Sep 2017 - Jan 2018*

---

## Projects

SVGO Action
*TypeScript, Jest, GitHub Actions, Code Climate, Codecov*

Simple Icons
Jekyll, JavaScript, Travis CI, GitHub Actions, Continuous Delivery

NervousFish
*Android, Java, Bluetooth, JUnit, Mockito, Travis CI, CheckStyle*

Wordrow
*Go, Fuzzing, GitHub Actions, Code Climate, BetterCodeHub*

Pinned Tabs for Atom
*JavaScript, LESS, Jasmine, Travis CI, Code Climate*

AutoCorrect-py
*Python, Travis CI*
